Setting up shop (11)

Handling Orders (18)

Conclusion (20)

A Quick Overview:

Okay - Below is a quick overview of what we will be doing to generate fast cash. Don't get overwhelmed as I go into detail on every step.

1. Creating Accounts on Fiverr and Etsy.
2. Finding the “right” gigs.

3. Posting on Etsy

4. Handling Orders; buying on fiverr and forwarding goods to buyer on etsy.

5. That's it! Oh..and the last step is to have fun. That is ALWAYS important.

The Websites

The websites that we will be using are: etsy.com and fiverr.com.

What is Fiverr?

For all newbies out there www.fiverr.com is site where people offer to do everything from marketing to painting portraits to making videos for \$5.

What is Etsy.

www.etsy.com is a website where people can buy and sell handmade, vintage, and artsy type goods.

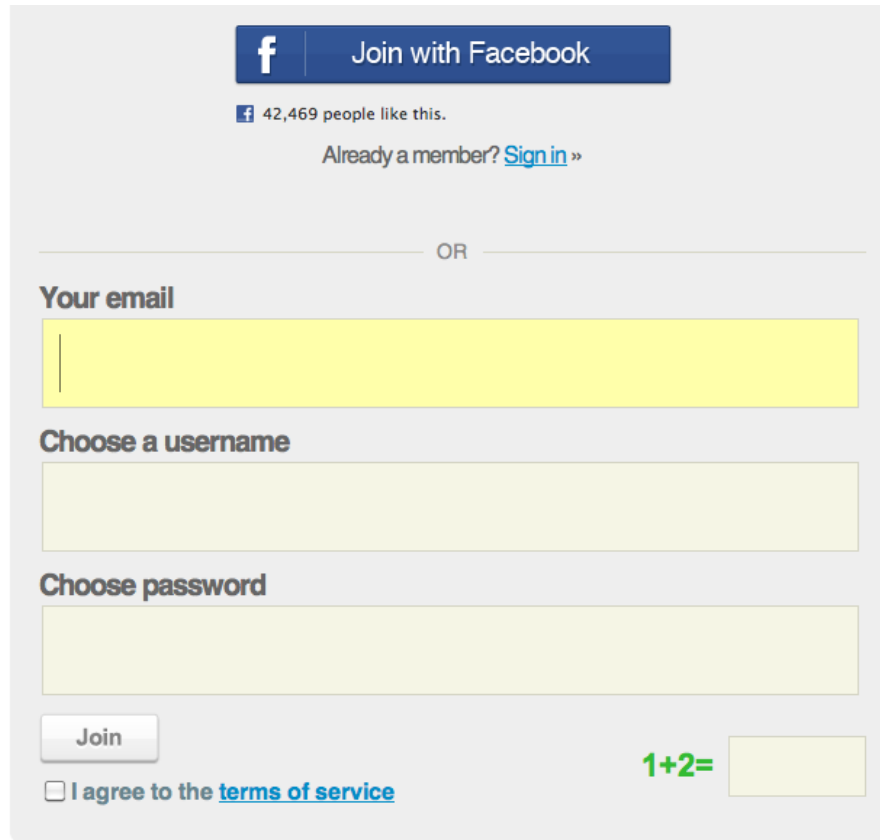

Creating Accounts

This is where I go over how to create the accounts for the needed sites. Pretty basic stuff but a necessity.

Fiverr:

1. Visit www.fiverr.com
2. Click
Join(<http://www.fiverr.com/join>)

3. Enter your details and confirm email.

The image shows the Etsy registration form. At the top, there is a blue button with the Facebook logo and the text "Join with Facebook". Below this, it says "42,469 people like this." and "Already a member? [Sign in](#) »". A horizontal line with "OR" in the center separates this from the main registration fields. The first field is "Your email" with a yellow input box. The second field is "Choose a username" with a light yellow input box. The third field is "Choose password" with a light yellow input box. Below the password field is a "Join" button. To the right of the "Join" button is a green text "1+2=" followed by a small yellow input box. At the bottom left, there is a checkbox and the text "I agree to the [terms of service](#)".

Join with Facebook

42,469 people like this.

Already a member? [Sign in](#) »

OR

Your email

Choose a username

Choose password

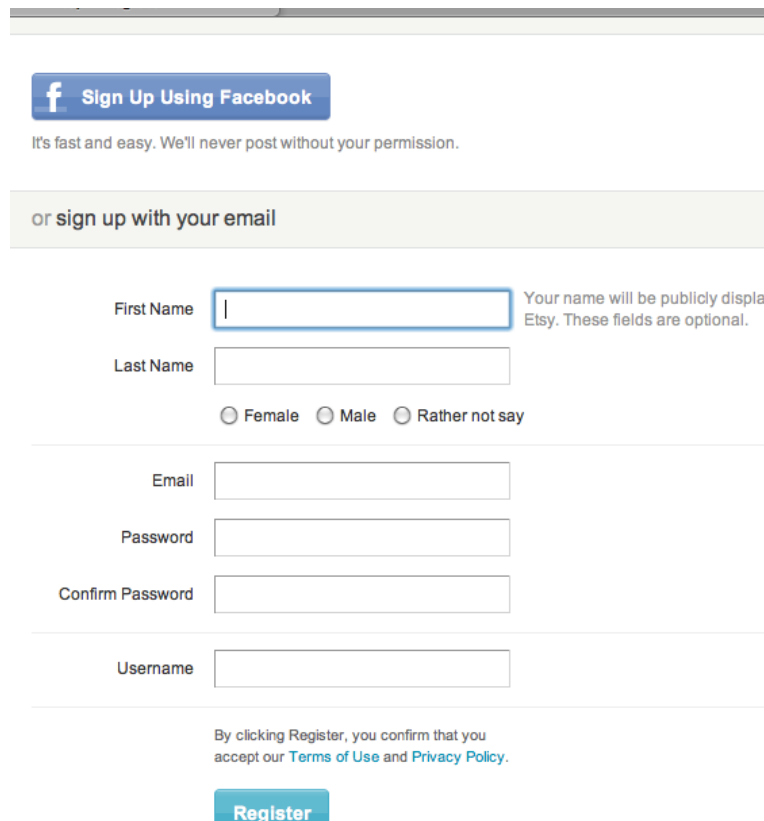

Join

1+2=

☐ I agree to the [terms of service](#)

Etsy:

1. Visit: <https://www.etsy.com/join>
2. Fill in needed details and confirm email.

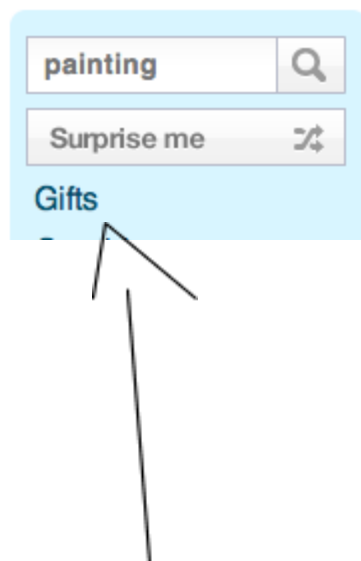

The screenshot shows the Etsy registration page. At the top, there is a blue button with a Facebook 'f' logo and the text 'Sign Up Using Facebook'. Below this button, a line of text reads: 'It's fast and easy. We'll never post without your permission.' Below this is a light gray bar with the text 'or sign up with your email'. The main registration form consists of several input fields: 'First Name' (with a placeholder character '|'), 'Last Name', 'Email', 'Password', 'Confirm Password', and 'Username'. To the right of the 'First Name' field, there is a note: 'Your name will be publicly displayed on Etsy. These fields are optional.' Below the 'Last Name' field, there are three radio button options: 'Female', 'Male', and 'Rather not say'. At the bottom of the form, there is a line of text: 'By clicking Register, you confirm that you accept our [Terms of Use](#) and [Privacy Policy](#).' Below this text is a blue 'Register' button.

3. Sign in to etsy and make sure your login is working
<https://www.etsy.com/signin>

Finding the “Right” Gig

Here comes the fun part! Now we need to find gigs that provide an artsy service. For example; paintings drawings, jewelry, anything handmade. Also make sure to check out the gifts section. This is where I find a lot of “right” gigs.

So what exactly is a the perfect gig to use? Here are some things to remember when finding it:

- The seller's item must be handmade
- The seller's item must be unique for each customer. So each painting/drawing must be unique.
- The seller on fiverr MUST be willing to ship the item to the US.
- The seller on fiverr MUST have previous customers that are happy. Look at the ratings and the level of the seller. Level 2 or top rated is

always better.

- The seller's item must be very high quality. If you are unsure try ordering it yourself before putting it into action.
- The seller **MUST** have pics of the item.

Okay, so those are some basic guidelines to follow.

Here are some ideas to get you started in the search for your gig.
(sorry I am not going to give gigs I use because of saturation of the one gig)

1. Caricatures
2. Pet Drawings/paintings
3. Portraits

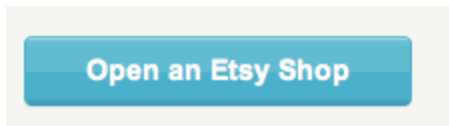

Setting Up Shop (for etsy)

In order to get orders we need to set up your etsy shop. But don't worry, it is pretty simple. I am going to break this down into steps:

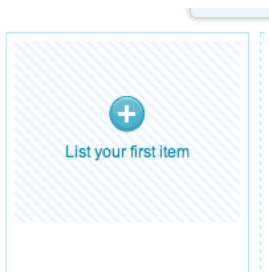

1. Click the sell button

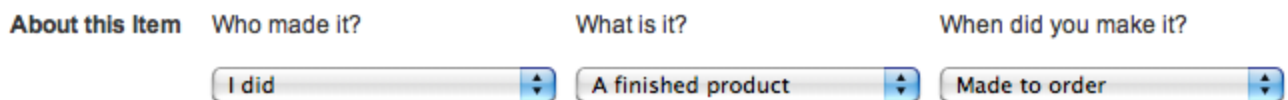

2. Click “Open an Etsy Shop”

3. Click the “List Your First Item” button

4. For “about this item” use these settings:

5. Now select Category 90% of the time I select art. This is a judgement

call: whatever you think best fits the gig will be the category.

6. Now this is IMPORTANT! :) For photos, simply go to fiverr. Take the example photo and right click it. Then “save as”. Finally upload the saved photo to etsy by clicking the button shown below.

7. For the item title, simply put a short general idea of the fiverr gig.
For Example: Custom Black and White

Caricature.

OR: Custom Pet Painting On Canvas

8. Description. This is by far the most important step. What I usually do is take all of the info I can from the gig description and re type it in a more friendly and descriptive way on etsy. Make sure to include how long it takes to ship, your email, along with the details on the item. (painted with oil etc) Here is an example:

Thanks for viewing my Caricature Etsy!

I am going to keep this short and simple...

You will get:

A custom caricature done in black and white based off of your photo!

The caricature will be of your head only.

It can be shipped ONLY to the Continental US!!

[IMPORTANT] After you order:

Please send a GOOD photo of yourself shoulders and up to:

abester101(at)gmail.com

Thanks and I hope you order soon!

Have any questions? [Contact the shop owner.](#)

Tip: Contact the fiverr seller and ask questions about what exactly the product is made out of and more.

9. Add tags. This is very important to because this is how buyers will find your product. Here are some examples of tags I used for the

caricature gig:

Art Drawing Portrait caricature sketch
portrait pencil paper

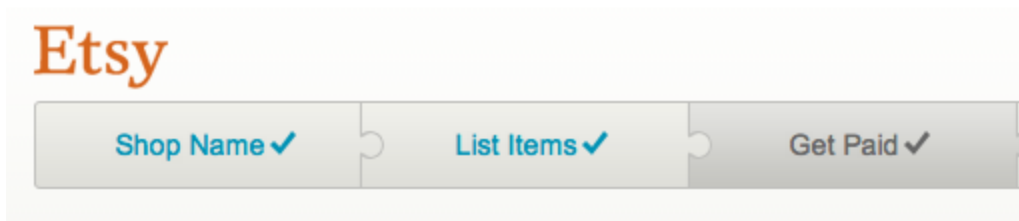

10: Set a price. Remember, you are only paying 5 dollars so don't go too high. I usually do 20 dollars more depending on the item..So \$25. Also check out your competition, see how much they charge!

11. Change the quantity to whatever you would like and add shipping. Don't add International shipping as most gigs don't allow that.

12. Preview Listing.

13. Go over to the Get paid section and add your paypal.

TIP: Set up for accepting credit cards!! You will get more orders! You can do that on the get paid tab by entering your bank account info!

14. Add your billing info - yes it is going cost you money to set-up shop. Only \$0.20.

15. YOU ARE DONE WITH THE HARDEST PART! :)

Handling Orders:

This part is pretty easy and pretty self explanatory but I will touch upon it anyway. When someone orders your etsy, you should get some sort of email notification. But I always check the site periodically just to be safe. Immediately after you get a purchaser from etsy order the gig you found from fiverr. Give the fiverr seller the

information from the etsy order. For example, you would send them a picture that the etsy buyer provided. (if it was a caricature gig or something like that). It is also important for you to give occasional updates to the buyer from etsy. Simply like: “Your order is shipping today” Or “Thanks for your order! I will get started immediately!” OR “It will arrive next week!” You get the idea, it is important to stay in contact with everyone at all times.

Conclusion

I hope you enjoyed this guide and found it useful. If you have ANY questions at all feel free to contact me:

abestoreyenterprises@@gmail.com

Thanks! :)
